

Danger of Rabies Told By County

State regulations requiring that suspected communicable diseases be reported to the public health department have been called to the attention of local residents by Roy O. Gilbert, Los Angeles County Health Officer following several instances of people being bitten by wild animals.

In this area where rabies is known to be present an unprovoked bite by an animal deserves investigation. Any warm-blooded animal is capable of having and transmitting rabies, the health officer warned, and for this reason, it is imperative that all animal bites be reported immediately. The County Health Department maintains a staff of men to follow up on these reports and place the animals under quarantine for observation. Dr. Gilbert pointed out, and if the animal should prove to have or should develop rabies there is imperative need for the administration of anti-rabies serum to the persons bitten.

In the Torrance and Lomita area, animal bites should be reported by telephone to the Torrance health center, Torrance 860.

Gets Building O. K.

Permission to build a five-room home was granted to R. Farn by the building inspector's office last week. The home will be built for \$6300 at 1820 Cabrillo avenue.

Motorists Warned To Check New Registrations

Motor Vehicle Director A. H. Henderson today urged California motorists to check their 1950 potential registration cards carefully when received.

Mailing of potential registration cards on trucks and trailers is under way and those for automobiles and motorcycles will be mailed beginning Dec. 15.

Henderson said the potentials, which bear the amount of fees due for 1950, should be checked carefully to ascertain if the vehicle described is still in the recipient's possession.

"Because of many late transfers, registered owners in some cases may receive potential registration cards for vehicles they no longer own," Henderson explained. "In such cases the potential should be destroyed in compliance with instructions on the reverse side of the second copy. In no event should they be forwarded to the new owner."

If a potential registration card is not received for the new vehicle by January 15, the registered owner should apply for renewal, using his 1949 registration card.

The annual registration renewal period opens January 3. Fees may be paid without penalty up to midnight February 4th.

REAL WEALTH
There is nothing that makes men rich and strong but that which they carry inside of them. Wealth is of the heart, not of the hand. —John Milton
